

A word on ZF 6 speed transmission fluids.

There is NO substitute transmission fluid for LifeGuard6, LifeGuard6+ or LifeGuard8 on the market today.

If you believe other transmission fluids are up to the task and insist on using those for your transmission, there is nothing we can do about it.

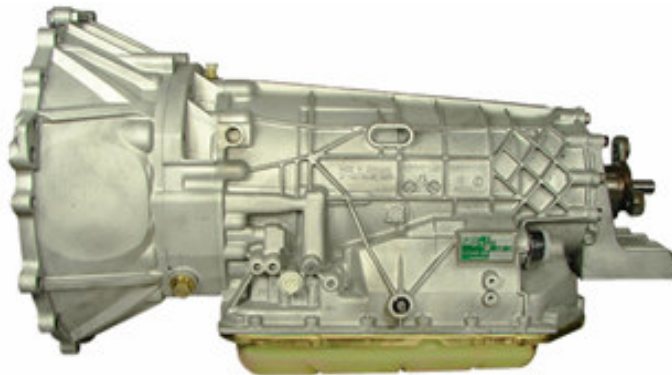

Just remember to give us call or check our website when the need arises - we have reasonable pricing on rebuilding kits and complete transmissions.

Our Promise

- We will supply quality remanufactured transmission and other transmission related products at a reasonable cost.
- We will strive to earn your business in a honest and open approach.
- We will make it right if you are not satisfied with any of our products or services.
